## A GREAT DECREASE.

Immigration Statistics Show Considerable Falling Off.

## MORE STEERAGE PASSENGERS GO

To Europe From America Than There Are Immigrants Coming In. An Interesting Comparative Statement—Largest Decrease From Belgium, Denmark, France, Germany, Norway and Switzerland—Big Percentage of Deportations.

WASHINGTON, March 5.—A statement prepared at the immigration bureau shows that the total number of immigrants arriving at the ports of the United States during the seven months ended February 1, 1895, was 113,375 as against 189,582 for the seven months ended February 1, 1894, a decrease of 76,207 or 40 per cent. The arrivals at the port of New York for the seven months from June 30, 1893, to February 1, 1895, 130,853, June 30, 1894, to February 1, 1895, 79,373, a decrease of 51,480 or 39 per cent as compared with last year, when the number arriving was very much less than any year since 1880.

A great decrease in immigration has been observed from Belgium, Denmark, France, Germany, Norway, Finland, Sweden and Switzerland, compared with the same period of fiscal years 1894 and 1895, which shows that in seven months from June 30, 1893, to January 31, 1894, 47,884; June 30, 1894, to January 31, 1895, 25,234, a decrease of 22,650, or 47 per cent.

Those countries usually furnish the most desirable classes of immigrants.

From Italy for the seven months of the fiscal year 1894-'95 immigration was as follows: From June 30, 1893, to January 31, 1894, 17,099; from June 30, 1894, to January 1, 1895, 11,151, a decrease of 5,948, or 34 per cent.

The decrease, it is hoped, will become more marked as the rules and regulations established in Italy, at the instance of our immigration officials, become felt, as is shown by comparing the months of December and January, of the fiscal year 1895, with the same months of the fiscal year 1894: December and January, 1894, 5,177; December and January, 1895, 2,773; a decrease of 2,404, or 42 per cent, and it is anticipated the Italian immigration will continue to decrease and at the same time improve in grade.

Immigration from Russia and Austria-Hungary, notwithstanding the decreased immigration from other countries for the same period, shows an increase for the months of December and January, 1894 and 1895. Austria-Hungary—3,744; Russia—3,408; total, 7,152. All other countries for the same period, 9,632; total 16,844, which shows that 42 per cent of the total amount for this period are from these countries.

The recent arrivals are chiefly of the most undesirable classes and are in destitute circumstances, entailing great labor upon immigration officials, and expense to steamship lines for maintenance while undergoing inspection and transportation of those debarked. As many as 186 of 338 steerage passengers from one ship have been detained for special examination, and as many as 227 have been deported in a single month.

Outgoing steerage passengers exceed the number of immigrants arriving. The actual number of outgoing alien steerage passengers who came here as immigrants cannot be accurately ascertained, but from data furnished by the steamship companies it is found that from November 1 to December 8, 1894, 25,544 steerage passengers left, whilst by bureau statistics only 12,886 immigrants arrived in the month of November, of the same year.

## Glad Congress Quit.

ALBANY, N. Y., March 5.—In the assembly Mr. Hennessy, a member of the Democratic minority, presented the following: "Resolved, That the legislature of the state of New York congratulate the people of the United States upon their release from the menace to public progress and general prosperity which existed while the Fifty-third Congress had the power to make laws for the nation. Mr. Folger, the Democratic leader, sprang into the aisle as the reading was finished, shouting, "I object," but the resolution was rushed through.

## President Goes Duck Hunting.

WASHINGTON, March 5.—The President, accompanied by Dr. O'Reilly, his physician, Commander George F. F. Wild, of the light house board, and Commander Lamberton, inspector of the Fifth light house district, left here this morning on the Violet for ten days' shooting on the inland waters of North Carolina.

## Canadian Reciprocity.

OTTAWA, Ont., March 5.—Canada Colony has offered free trade with Canada with all the gain which that means to both countries, including an advantage to the Canadian markets of Cape Colony equal to 20 per cent over those of the United States and even Great Britain. This is the first practical move in the direction of preferential trade. The Canadian government will reciprocate.

## Don't You Know

that you can secure almost immediate relief from indigestion, and that uncomfortable fullness after meals, by simply taking a dose of Simmons Liver Regulator? Some people think that because it is called Liver Regulator it has nothing to do with indigestion and the like. It is the inaction of the Liver that causes indigestion, and that fullness; also Constipation, and those Bilious Headaches. Millions have been made to understand this and have been cured from these troubles by Simmons Liver Regulator—a medicine unfailing and purely vegetable.

From Rev. M. B. Wharton, Baltimore, Md. "It affords me pleasure to add my testimony to the great virtues of Simmons Liver Regulator. I have had experience with it, as occasion demanded, for many years, and regard it as the greatest medicine of our time. So good a medicine deserves universal commendation."

## TWO LIVES LOST.

A Man and a Woman Perish in Burning Buildings in New York City.

New York, March 5.—Mrs. Rose Kennedy, fifty years of age, perished by fire to-day in the six story double flat building at 370 Columbus avenue, and for a time the forty or fifty other occupants of the building were in great peril of sharing her fate. The fire broke out on one of the upper floors and made considerable headway before it was discovered.

Mrs. Kennedy lived with the family of her brother, Martin Connellan, on the sixth floor. Connellan and his wife reached the ground by the rear, and as they did so appealed to two men who were ascending to save their two children, telling where they were to be found. The men rescued the little ones but made no search for other occupants of the flat, knowing none. When the fire had been extinguished, after \$10,000 damage had been done, the dead body of Mrs. Kennedy was discovered. She had died from suffocation, and the clothing had been burned from her body.

Thomas Dougherty, twenty-two years old, was burned to death in his boarding house, 238-avenue A, which took fire during the night. His body was burned beyond identification. As Miss Bruer, the keeper of the house, left it with her papers and pocketbook, containing \$300, the latter was taken from her by a young tough, who fled.

Sixteen men lived in the place. The fire was discovered by Joseph Lovell. He clambered up the shutters of the building until he reached the fire escape and then ran up to the top floor, where he prevented a man from jumping out until he was taken down on a ladder by the fireman.

## A PERSECUTED WOMAN.

She Creates a Scene on a Street in New York.

NEW YORK, March 5.—A woman caused a sensation on West Thirty-fifth street last night by standing on the step of a closed cab and screaming. At the corner of Broadway she fell to the street. Shortly afterward a woman answering her description visited Police Captain Pickett and told him that her husband, Richard Laird, of Pittsburgh, had entered the home of Mrs. Martell, on West Thirty-fifth street, and she wanted him gotten out of the house.

An officer accompanied the woman to the house and a violent scene occurred, having for its actors the man alleged to be Laird, a friend of his said to be Mark Boyd, Mrs. Martell, the woman claiming to be Laird's wife and a woman said to be Mrs. Holmes, of Pittsburgh. Laird and Mrs. Holmes finally left the building and drove away in a cab. The detectives say the woman who claimed to be Laird's wife never was married to him, but is Ida Hathaway, of Boston, with whom he is said to have lived in Pittsburgh, and who brought suit against him in that city for abandonment and non-support and later entered suit for \$10,000 damages.

## SHOT ON THE STREET.

Unusual Manner in Which a Man Met His Death.

CINCINNATI, March 5.—A most peculiar accident occurred in front of James Martin's residence, on Dalton avenue, in the west end of this city to-day. Herman Wessling, a varnisher in a furniture factory, was on his way to work, when, without warning, a pistol ball entered his chest, passing through his heart, and he fell unconscious before Mr. Martin's home. The story of the shooting, as told by Mrs. Martin, is that she was making up their folding bed in the lower front room, and took the revolver from under the pillow and placed it on the mantelpiece. Just as she did so she heard a pistol shot, but did not know it was the one she was handling. Her husband rushed in from the back room to ask about it, and they found it was their pistol, and also found the hole where it went through the wall. The police question the accuracy of the story of the shooting, though there is nothing to show anything but accident so far as the victim is concerned. Mr. Martin came here from Chattanooga.

## EXODUS OF NEGROES

To Liberia From the South—Thousands Expected to Go.

BIRMINGHAM, Ala., March 5.—The movement of negroes from the South to Liberia is about to become a reality. On Thursday next a special train, chartered by the International Emigration Society, of this city, will leave Memphis for Savannah, going via Birmingham and Atlanta. Negroes from Arkansas, Mississippi, Alabama, Tennessee and Georgia, to the number of five hundred, have already arranged to go on it to Savannah, from where a steamer of the African Steamship Company will take them directly to the dark continent. An advanced guard of eighteen colored preachers, who went to Liberia in January, write back of the glories of the country, and the negroes all over the south are greatly enticed at the prospect of returning to the land of their fathers. Thousands of them are expected to go during the year.

## FROM JAPAN.

Chinese Sunk in War Vessels to Be Raised. John White to Be Tried.

YOKOHAMA, March 5.—The captured Chinese war ships have arrived here and the reports of the Japanese commanders are favorable to the raising of the sunken vessels of China at Wei-Hai-Wei.

The Japanese have abandoned the Shantung Peninsula, including Wei-Hai-Wei, after destroying the fortifications at the latter place.

John White, alias Howie, the American who planned to blow up Japanese warships in a novel manner, and who was captured at Wei-Hai-Wei after having previously been released on parole, has been brought to Japan for trial.

## The Damage at Port Deposit.

PORT DEPOSIT, Md., March 5.—The water has all left town, but the railroad track for two miles is covered with ice from five to twenty feet thick. The town authorities are trying to cut a driveway through the streets. There is a fourteen mile gorge at McCall's Ferry, which may move at any time. The damage by the flood will reach \$25,000, most of which will fall on the poorer classes.

## Three Firms Go at Once.

St. Louis, March 5.—It has just come to light that Crawford M. Kondrick and Charles A. Kondrick, two brothers who have been doing business in the city, under the names of C. M. Kondrick & Co., the Mississippi Valley Mercantile Company, and who stood high in business and social circles, have left, leaving behind considerable indebtedness. Last January the firms of C. M. Kondrick & Co. and the "Inter-State Candy Company" made an assignment, but the

Mississippi Valley Mercantile Company continued in business. It is said that the brothers borrowed money from various banks, giving as security the paper on one of their other firms and bought goods under one firm name and sold them under another firm name.

## STATE EX-HANGING.

Capehart's Bad Break. Morning Herald.

Congressman Capehart is trying to squirm out of the hole in which he has gotten himself by his scandalous misrepresentation of Senator-elect Elkins. As will be seen by reference to his letter in another column his alleged information came from a friend who, he says, saw such a letter from Mr. Elkins. Under ordinary circumstances the evidence would not be accepted, much less so when Mr. Elkins says there is no such letter in existence for the simple reason that he never wrote anything of the kind. But to enable all to know how contemptibly mean Capehart is we quote from a letter written by him and published in the Wheeling Register of Wednesday, in which he insinuates that "Mr. Elkins will not give the public the letter referred to." Everybody who knows Capehart knows that if he had any of the documentary evidence referred to he would have had it published long ago. As the matter now stands, Capehart must produce the "friend," or the "letter," or the party who had possession of the "letter," neither of which can be done.

## The Register's Unjournalistic Methods.

Charleston Mail.

In yesterday's Wheeling Register there appears a part of two editorials from the Mail printed side by side in that paper. The object the Register has in doing this is to try and make it appear that the Mail has two sets of views about the legislature that has just adjourned. The truth of the matter is that the Register has in this instance resorted to a little sharp practice that the Mail does not consider just the thing to do. It selected a few sentences out of an editorial which compared the work of the last legislature with the work of former legislatures, which sentences stated what the last legislature omitted to do. But the Register carefully omitted to reproduce the balance of the editorial, which told of the failure of other legislatures and of the things which the last legislature did do.

## Good Work.

Fairmont West Virginian.

That it did not come up to the expectations in several particulars is due, it seems, to the small Republican majority we had in the senate. There was in fact no such majority in that body, as it was composed of thirteen Republicans, twelve Democrats and one Populist. The latter voted as the spirit moved him.

If the legislature had adjourned as soon as it elected Mr. Elkins to the United States senate, we would have been as well satisfied then as we are now. That action, we sincerely believe, was worth more to the people of this state than all else that has been done by our legislatures in the past twenty-five years.

## A Good Thing.

Morgantown Post.

The Republican party of West Virginia is enjoying itself, and the state has not suffered at the hands of the state legislature. Several thousands of dollars have been saved by having the Republicans on deck again, and our state university has been given a board of regents composed of five Democrats and four Republicans—something that has always been needed. It is hoped that the school will now build up as it should since being taken from entirely partisan hands.

## Turned the Wrong Way.

Huntingdon Advertiser.

Geo. Wes. Atkinson, of Wheeling, is enjoying a genuine boom for the Republican nomination for governor next year. It is not thought now that Hon. William S. Edwards, of Kanawha, will be in anybody's way. The speakership of the lower house of the legislature proved to be a stepping stone, sure enough, but it was turned the wrong way.

## Should Have Passed.

Hinton Republican.

One thing, however, was left undone that should be remedied by all means. It can be remedied and should be done. Governor MacCorkle, if he is the patriot he is given credit of being, will at once call an extra session of the legislature to arrange the judicial districts of the state. In the present congested condition of the dockets of the courts we have a problem that is growing more serious every day.

## Business Like.

Tucker County Republican.

The Republican state legislature adjourned on schedule time Friday, and not one partisan bill was passed during the entire session. It was without exception the most business-like legislature West Virginia has ever had, and also one of the most conservative. The members, as well as our level headed governor, are to be congratulated on the character of the work done.

## KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance. Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
